

BITS-RMIT (India-Australia) PhD Research Partnership

- **Transform your future with a transnational joint PhD from two leading universities**
- **Attractive scholarships available including funded travel to Melbourne, Australian stipend and overseas health cover**

Join our unique collaboration between BITS (Birla Institute of Technology and Science) and RMIT (Royal Melbourne Institute of Technology) offering a [PhD program](#) specifically designed for Indian students. Develop your research skills, network with renowned academics and gain hands-on experience conducting original research. Experience world-class education combining the research expertise of both institutions and gain exposure to cutting-edge research and research facilities across several discipline.

Highlights

- Acquire an internationally recognised qualification from an Indian Institute of Eminence University and a top Australian university
- Receive a full RMIT tuition fee scholarship for the duration of your enrolment
- Receive a generous scholarship with nominal tuition fees from BITS
- Benefit from the combined expertise of two leading universities and access world-class research facilities in India and in Melbourne.
- Travel to Australia for up to one year of candidature and be supported by an Australian stipend for the duration of your time in Melbourne

Candidates admitted to the program are jointly supervised by faculty from [BITS](#) and [RMIT](#).

[Apply now](#) and unlock your full potential, empowering your future in academia or industry.
